

Eurydice

Director **Brian Mulcahy** · **Xander Manshel**
Musical Director **Oriana Catton** · **Steve Rabach**
Performed by **Bonsai Cacti** from **Chinese International School**

Eurydice is Bonsai's exploration of a more lyrical mode. An imagining of the Greek myth, it presents the events of the narrative from Eurydice's point of view and explores music, funeral rites and journeys in a series of site-specific presentations, including a crossing of the Hong Kong harbour. The play is excerpted and adapted for this venue.

Hong Kong is a transient place, people are constantly coming and going, but incredible things can still happen when people come together for a cause. This is a collage that draws inspiration from the history and the people of the city.
